While the relationship never gets much deeper than that of a mentor and apprentice, it provides some laughs and gives Max the confidence he needs to return home to the city. Nowadays, scientists use animals in medical research, but the lives of those animals are put in danger and they suffer when they are used in scientific experiments.

In so doing, she establishes a defining perspective on the heritage, which can then be claimed and expanded by inheritors of that tradition. We will try to see in which relational dynamics with the victim this policy of the secret is involved by presenting the insidious dimension of harassing. Indeed, this is precisely why her book - written with brio, depth and sensitivity - is Call To The Country valuable, and deserves attention.
